

HEIGHTEN EMOTIONS

4th-level enchantment

Casting Time: 1 action

Range: 60 Feet

Components: V, S

Duration: Concentration, up to 10 minutes

You attempt to heighten the emotions of those around you. Select up to 10 targets. Each of these targets makes a Wisdom saving throw; on a failure, their current emotion state is made more extreme. For example, if someone was nervous before, they would now be frightened; if someone was pieved before, they would now be angry.

When used on a group of frightened or angry people, this can help cause a panic or riot, respectively.

At Higher Levels. For each spell slot level above 4th, the number of targets increases by 4, and the duration increases by 10 minutes.
